About SMPS

SMPS is the only national association that delivers the necessary tools to promote marketing and management success in professional service firms. SMPS was created in 1973 by a small group of professional service firm leaders who recognized the need to sharpen skills, pool resources and work together to create business opportunities. Together they created SMPS to help tackle the day-to-day complexities of marketing in a time when marketing was barely acknowledged as a separate component of professional service firms. Today, SMPS has over 6,150 members who are active in more than 50 chapters across the United States. Our members are marketing professionals employed by architecture, engineering, planning, interior design, construction, legal, accounting, and specialty consulting firms.
